**When using stock original equipment (OEM) mounting bracket remove camera cover by cutting it off.**

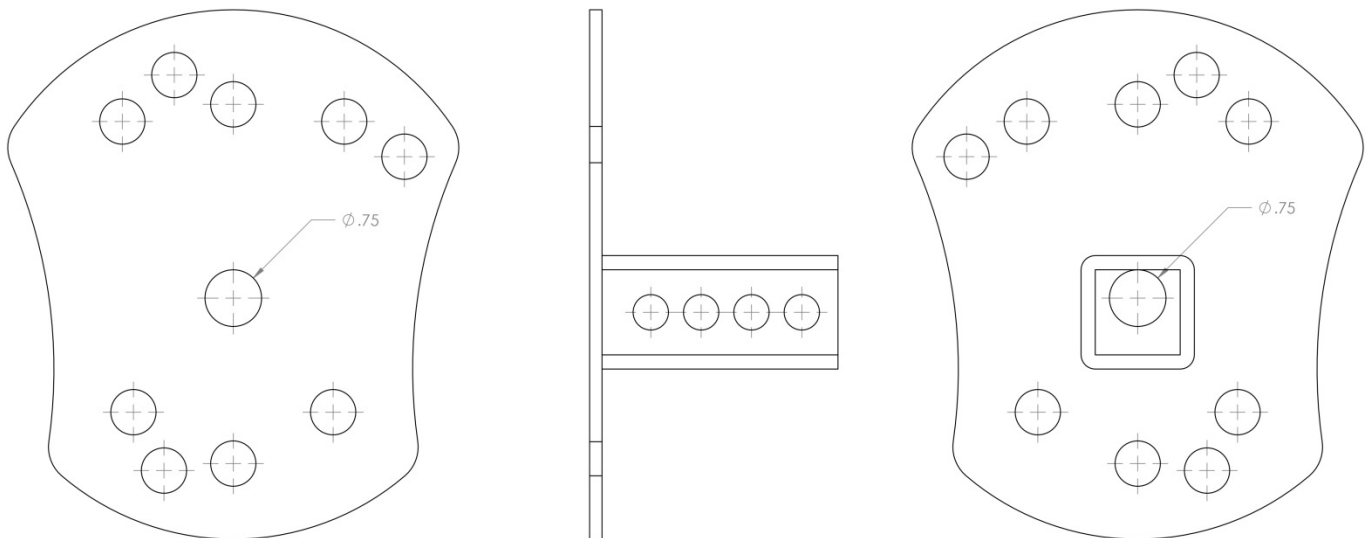

**To access the camera's feed cables it will be necessary to remove these panels on the inside of the rear tailgate.**

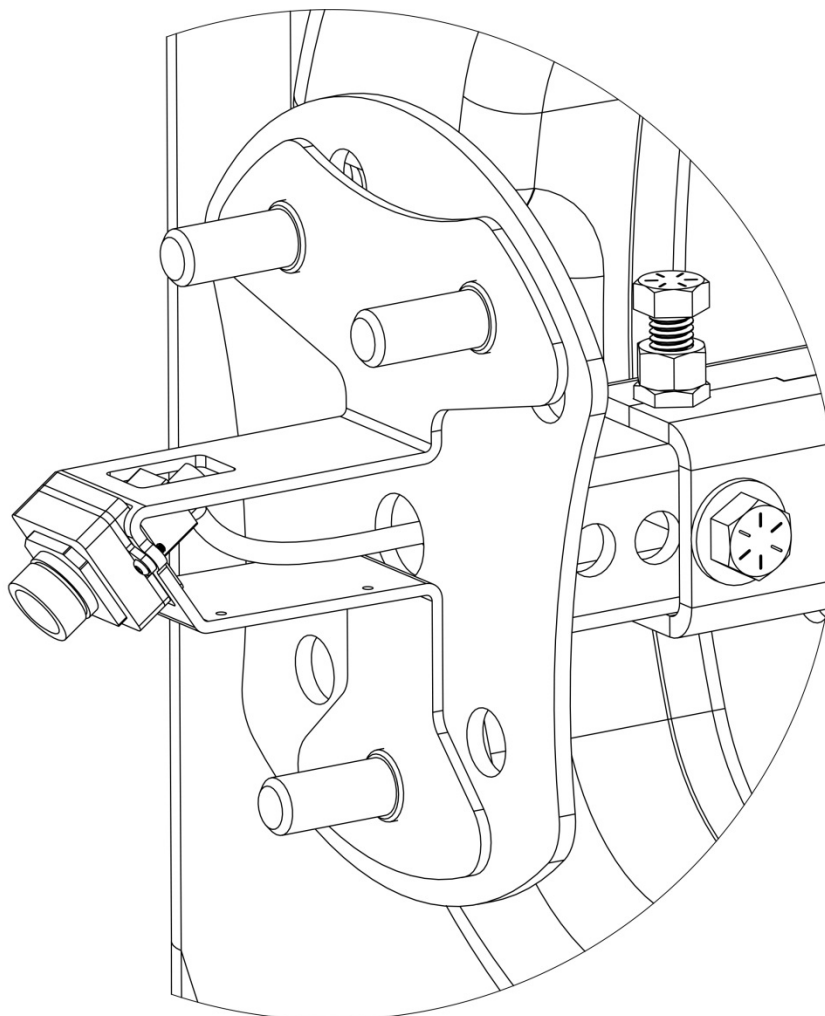

**After accessing the camera's cables, disconnect them as shown. After they are routed back from the camera through the mouting bracket (see below) they will need to be reconnected.**

**Detail of TITAN Trail Trekker II™, Tire Mounting Bracket. If yours does not have the ¾" (19 mm) hole in the center you will need to drill one, as shown, for the camera cable to pass through.**

Camera installation and cable routing through Tire Mounting Bracket is shown above. There should be enough slack in the cabling to reach. Refer to the complete installation instructions for TITAN Trail Trekker II™ auxiliary fuel tank for additional details. Complete assembly and installation as shown in “Assembly Illustration” shown above on page 2.
